

A PERFECT ATTACHMENT

TO EXPLORE A NEW PATH

HP series breakers are smart hydraulic breakers that have the potential to demolish solid structures of rocks with excellent durability, great power, and lowest operating cost.

A PERFECT ATTACHMENT TO MAKE A BIGGER IMPACT.

Technical Specifications	UNIT	HP150	HP225
Excavator Weight class	Ton	12-16	18-26
Operating Weight (*)	Kg	1025	1735
Overall Length	mm	2285	2675
Chisel Out Dia.	mm	110	135
Chisel Length	mm	1000	1200
Setting Pressure	bar	200	220
Operating / Working Pressure	bar	150-180	180-190
Optimal Oil Flow	lpm	90-120	120-180
Blow Rate	bpm	350-650	330-550
Back Head Pressure	bar	14-16	14-16
Stroke Control	-	-	✓
Accumulator	-	-	✓
Anti Blank Firing	-	-	✓
Auto Greasing	-	Optional	Optional

PRODUCTIVITY

Increased contact area of impact.
Accumulator for optimized productivity.
Bigger nitrogen chamber.
generates bigger impact power.

DURABILITY

Robust reinforced breaker body.
Longer life & reliability.
Superior heat treated steel alloy
for components.

VIBRATION DAMPING SYSTEM

Low vibration during operation.

ANTI ABRASIVE STEEL FOR BOTTOM PLATE

Extra protection to breaker.
Low maintenance & repair cost.

ANTI BLANK FIRING*

Anti blank firing helps protect chisel points,
bolts and front heads regardless of the application
Improves life span of the breaker.
Reduces unnecessary impact on the
machine structure, boom and arm due to idle firing.

PERFORMANCE

Best in class power to weight ratio.
Low impact on carrier/machine structure.
Better fuel efficiency.

LOW NOISE FRAME

Substantially lower dB in class.

EFFICIENCY

BPM ADJUSTER.
Controls speed & power.
Saves fuel cost.

PROFITABILITY

Best operating cost in segment.
Faster return on investment.

SERVICEABILITY

200+ Touch points.
Competent manpower.
Readily available parts.

HD Hyundai Construction Equipment India Pvt. Ltd.

Factory Location

Plot No. A-2, M.I.D.C. Chakan, Phase II,
Village: Khalumbre, Taluka: Khed, Dist : Pune-410501
