

Electric Counterbalance Trucks

# **MOVING YOU FURTHER**

Some of the photos may include optional equipment.All lamps are optional

# Your satisfaction is our priority!

Hyundai introduces a new line of **9F-series** battery forklift trucks. These Forklifts are designed to acheive optimized performance for every working environment with better economize advantage. They will surely meet the best satisfaction.

Some of the photos may include optional equipment.

All lamps are optional

# **Compact forklift with proven AC technology**

Optimized performance Comfortable operating room Battery side loading system (Optional) Curve control system

HYUNDAI FORKLIFT 03

# High Efficiency & **Optimal Performance**

Some of the photos may include optional equipment.All lamps are optional

# Advanced drive and lift performance with proven durability and low maintenance

The enclosed drive and pump motor with AC technology combine power, high maintenance intervals and excellent durability. The brushless AC motors offer improved efficiency and reduction maintenance cost. Advanced technology enables smooth operation and optial performance with safety.

# 16/18/20B-9F

Some of the photos may include optional equipment.All lamps are optional

Using a dual drive system will minimise aisle width and energy consumption.

Gradeability (MAX)

Travel Sp	beed (M	AX), u	nloaded	

-		-	
Model	%	Model	km / h
16B-9F	22	16B-9F	15
18B-9F	21	18B-9F	15
20B-9F	18	20B-9F	15

# Anti roll back system, travel speed and gradeability

Anti Roll-back system offers protection against the machine rolling back on a ramp in combination with exceptional ramp start capabilities.

# Advanced Safety

# **Excellent visibility for safe operation** Optimized lift cylinder arrangement provides operator with wider visibility.

Some of the photos may include optional equipment.All lamps are optional

**Panoramic mirror** 

The panoramic mirror expands the driver's view when backing up.

# Strong overhead guard

Exceeding ISO6055 and ANSI regulations, the overhead guard offers great protection combined with excellent all around visibility.

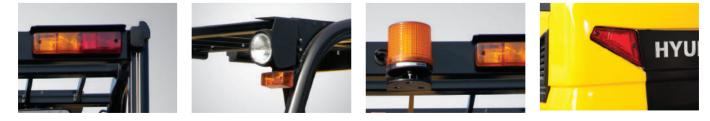

06 HYUNDAI FORKLIFT

The safely designed driver's space makes your operating more comfortable.

# 16/18/20B-9F

Some of the photos may include optional equipment.All lamps are optional

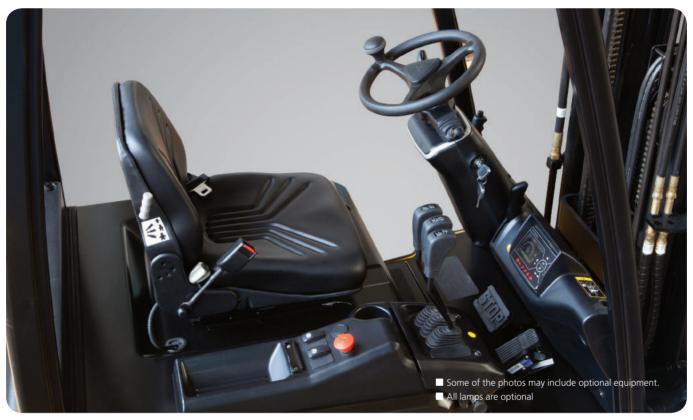

# Safety lamps(optional) & reflectors

Rear combination lights and halogen headlights offer the driver visibility in all circumstance. Rear reflectors mounted on the counterweight enhance safety for the driver and the application.

# Optimised Ergonomics & Fast and Easy Maintenance

### Spacious operator cabin

The Truck is designed as a small, compact design, yet the operator compartment has ample room for virtually any operator.

### Low entrance height

In order to get in and out of the cabin in an easy and safe way, the height of the entrance step is only 400mm high.

# Optimized pedal position and Anti Slippad

The position of accelerator and brake pedal have been optimized through human engineering.

# Adjustable steering wheel

To achieve a comfortable drive position, the angle of the steering column can easily be adjusted through a lever on the right-hand side of the steering column.

### Comfortable Full Suspension Grammer Seat (Optional)

Easily adjustable suspension seat, based on a human engineering design, reduces operator fatigue and provides greater comfort.

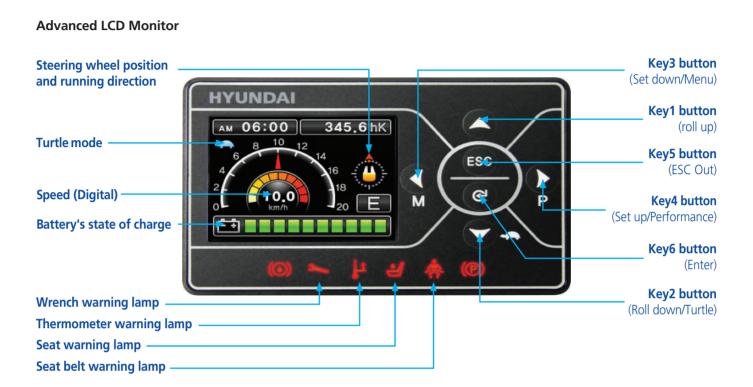

\*ELR (Energy Locking Retractor) Type Seat Belt

\*Heating and Head-rest

\*Movable Armrests

An ideal arrangement of components ensures easy access and convenience for maintenance.

16/18/20B-9F

The LCD color monitor with 3.5 inch graphic smart display allows the operator to easily and efficiently control the machine. The monitor provides information about speed & accelerator level, steer angle & travel direction, battery discharge indicator, hour meter & working mode. The operator can select various performance modes to meet all working conditions. It is available multi-languages (maximum 11) for operator.

The monitor also displays information about operation error, system fault, battery level, hour meter plus other various functions. It enables the operator to maintain the forklift in optimum operating condition.

H (High) mode N (Normal) mode E (Economic) mode Turtle mode

# Easy battery replacement (Optional)

The battery compartment is equipped with a side battery removal assembly for easy removal and replacement. (The battery stand is optional equipment.)

### Brake oil reservoir with level sensor

The enhanced brake oil reservoir, located in the upper left dash is equipped with an electronic level sensor and easily visible through the monitor.
